

IENT is a leading ANSI-accredited standards development organization supporting contamination control, environmental testing, product reliability, and nanotechnology facilities

As a 501(c)(3) nonprofit, we provide a neutral platform where experts from industry, government, and academia collaborate to develop critical Recommended Practices and Standards, and facilitate expert Working Groups behind foundational documents such as MIL-STD-810, and IEST-STD-1246.

Additionally, IEST is the Secretariat of ISO/TC 209 and administers the U.S. TAG to ISO/TC 209's participation in the ISO 14644 and 14698 cleanroom series.

## IENT Alliance for Excellence Partners Contribute to:

### Industry Legacy

Help develop standards and mentor the next generation of industry leaders.

### Thought Leadership

Position your organization as a key industry innovator.

### Educational Growth

Support workforce development and expand industry knowledge.

## Become an IEST Partner in Excellence and Make an Impact!

Your support fuels IEST to provide a continued framework for expert leadership in U.S. and global Standards, allowing for timely updates to critical documents, and expanding real-world training aligned with industry needs. As an IEST Partner in Excellence, your contribution will support IEST in advancing global sustainability and promoting positive change through every aspect of our work through standards development, recommended practices, and educational programs. Through this partnership, your organization will be recognized with increased reach and exposure at the highest level of recognition offered within the IEST.

- ✓ **Premium logo placement recognizing Partner through IEST**
- ✓ **Branding on strategic "Brought to You by" initiatives aligned with IEST Partners in Excellence**
- ✓ **Special collaborative opportunities for IEST and Partners to work together**
- ✓ **Priority contribution to keynote speaking or panel suggestions for ESTECH**
- ✓ **Publication of annual Tech Talk in Journal of the IEST**

## Advancing Global Sustainability

We are committed to advancing global sustainability and promoting positive change through every aspect of our work and contribute to the United Nations Sustainable Development Goals through standards development, recommended practices, and educational programs. The dedication to these shared values fosters long-term success, positioning us and our partners as leaders in driving positive change for both present and future generations through these UN SDG's.

**Goal 3: Good Health and Well-Being**

**Goal 4: Quality Education**

**Goal 6: Clean Water and Sanitation**

**Goal 9: Industry, Innovation, & Infrastructure**

**Goal 12: Responsible Consumption & Production**

**Goal 13: Climate Action**

**Goal 17: Partnerships**
