Peer Review Process • Journal of the IEST

1 Technical Editors
A. Proactively solicit papers, select papers from IEST Proceedings, select papers from other proceedings (RAMS, ATS, Space Sim.).
B. Determine who should review papers in a peer review process.

2 Reviewers (Advisers)
A. Rate and comment on papers.
B. Should also proactively solicit papers.

3 IEST Headquarters staff
Compiles comments.

4a Author
Revision.

5 IEST Headquarters Staff
If Technical Editors recommend publication (issues resolved per 4b), then final editing and formatting.

4b Technical Editors
If major unresolved issues remain, the Technical Editors shall determine whether the paper should be published as is, published with changes, or dropped from the publication schedule.
